

# SHIROBODY BED

The new Shirobody treatment bed with Shirodara Waterfall, designed to elevate the wellness experience through an innovative blend of massage and therapeutic water treatments for hair, offers not only a unique water-based hair treatment but also supports traditional Ayurvedic oil therapy, enhancing relaxation and revitalization in one seamless experience.

Additionally, this system is equipped with a steam treatment hood, enabling an advanced steam therapy for hair. This feature is carefully designed to improve scalp health, cleanse hair follicles, and enhance hair quality. The steam deeply cleanses the skin, treats the cuticle, and promotes healthier, more vibrant hair.

Perfectly suited for modern wellness centers, the Shirodara Waterfall embodies the future of holistic beauty and relaxation
